

MobyHeat FSC1

Option Code: [-HEAT-FSC1-]

Insulated tank cover for light night frost.

Illustrations may differ from the actual scope of delivery

Function

The insulated tank cover prevents the washing water from freezing during light night frost. The covers can also be produced for demanding layouts and are available for many tank combinations.

The insulated tank cover cannot be used as a substitute for a fall protection device.

Technical description

Sandwich construction polyurethane insulation panels with a steel frame painted in Traffic blue (RAL 5017) for mounting on the rim of the MobyDick recycling tank.

Specifications

Frame

- Material Steel
- Colour Traffic blue (RAL 5017)

Tank cover

- Material Polyurethane (PUR)
- Weight 10.41 kg/m²

General scope of supply

- Tank cover with metal frame
- Extension of feed pipe (as required)
- Frame for edge elevation (as required)
